

PEEL FOREST ESTATE

Velvet Genetics Sale

Friday, 10th January 2025
Viewing 12pm, Auction 1pm

PEEL FOREST ESTATE

An estate of excellence

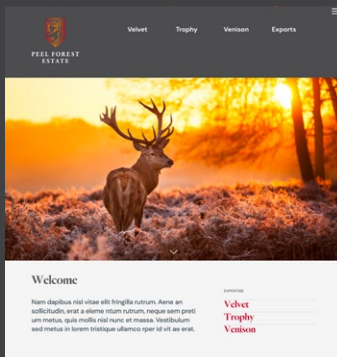

Our commitment to this industry has not wavered in the 35 years since Graham Carr originally set up Peel Forest Estate.

Most industries are cyclical in nature, and ours is no different. It needs a special kind of determination to keep the faith, and a firm commitment to ride out the difficult times to come out better in the good times.

Our determination and success is captured by a very simple philosophy, a quest for excellence in all we do. From innovation through genetics, to animal husbandry techniques, and responding to changing market demand and value-adding opportunities, we continue in our quest for excellence.

That's what our new brand is all about. We're proud of our new look because it sets us up for our future development, both here in New Zealand and export markets. Importantly it serves as a constant reminder that good enough isn't in our ongoing search for excellence – in everything we do.

Welcome to the 2025 Velvet Sire Sale

It has certainly been an interesting year for the velvet industry. A significant effort, led by Rhys and the DINZ team, has gone into implementing the new protocols for selling frozen, unprocessed velvet into China—just in the nick of time. This marks a positive step forward for the industry, but it has also caused considerable market disruptions. At the time of writing, there remains uncertainty around pricing, with many of you likely still holding substantial volumes of velvet. As farmers, we must weather both the highs and the lows, and this season will undoubtedly be one to put behind us.

Even in challenging times, maintaining your breeding programs and philosophies is critical. Consistently investing in top-quality genetics is essential to capitalizing on the highs when they inevitably return—and they will.

Once again, we've worked to ensure our offering is clean and tidy. Using sires with traditional-style velvet is vital, as your breeding hinds carry and spread these genetics for years to come. This year's lineup averages an impressive 8.26 kg across 25 stags, up from 7.77 kg last year. With a diverse range of genetics on offer, we're confident there's something for everyone.

We're also excited to introduce a new addition to this year's sale: 19x 1-year old hinds. This is the

first time we're offering hinds, and among them, you'll find some superstar genetics. We're thrilled to make these top-notch females from Peel Forest available to you and hope you're equally excited by the opportunity.

As always, we've provided videos of the velvet, giving you a 360-degree view of the heads—an especially valuable tool for those bidding online via BIDR. Simply scan the QR code with your phone or click the link if you're reading the digital version. Of course, we'd love to see you in person on the day so you can inspect the heads firsthand.

We look forward to welcoming you to the sale.

Regards,

Mark Tapley

Ground breaking Johne's research at Peel Forest

The annual cost of Johne's disease to the New Zealand deer industry in 2011 was estimated at least \$8.8 million. Even more importantly, the cost of Johne's disease on farms with heavily affected deer herds can be huge, ruining the profitability of your deer unit.

For the last ten years Peel Forest Estate has made a serious commitment to breeding Johne's Resilient deer on the property and is leading the way with an industry breaking research project with Dr Frank Griffin, Head of Microbiology at the University of Otago.

There have been huge gains in the research by not only reducing the presence of Susceptible animals but more importantly identifying Resilient bloodlines. This breakthrough is even more important due to the fact Colin Mackintosh from Agresearch has identified the powerful heritability of either Susceptibility or Resilience to Johne's in deer. The heritability of the Johne's resilient trait ensures the ability of Peel Forest Estate stags to fight the disease on our client's properties.

In Colin Mackintosh's paper following his trial on heritability he comments "the offspring of the S (Susceptible) sire was significantly more severely affected than those of the R (Resilient) sire. Most of the Resistant, but not the Susceptible, showed evidence of resolving lesions and a reduction in M.A.P (Johne's) after challenge". The paper went on to say "the 5 male offspring gained significantly more weight than the 9 S offspring over the 49 week study (70.3kg versus 59.8kg) despite being

2.8kg lighter at the start". This difference was statistically significant and even more significant because the S sire had a higher breeding value for 12 month weight.

Further to this research Peel Forest Estate are now going to look into the possible improvements to meat yield and quality from progeny with Johne's resilience as well as the proven on farm productivity benefits.

All stock at Peel Forest Estate are continually challenged by Johne's which has resulted in a radical test-cull, natural and genetic selection for Johne's resilience. The heritability of the Johne's resilient trait ensures their ability to fight the disease on your property.

Sire stag care and management

Sires are the most valuable animal in the deer herd. They carry the genetics that will determine the future production of your herd. The welfare and 12 month health programme cannot be compromised if you wish to get the best from your sires.

On arrival

Stress is at a high level when your new stag arrive at your property. He has left familiar surroundings and mates he has lived with in a social group of around 40 animals of the same age. His arrival can be made a lot less stressful if you follow a few simple rules.

1. Your stag should arrive as early as possible to settle in (preferably before February)
2. Having a few animals in the yard when the stag is unloaded is important.

He should be introduced to a small group of similar age (10-15 animals). Never put with older stags or spikers. Ideally if the hinds he was to mate were nearby he could go directly into the mob. Early fawns should always be the aim.

The roar

A 3 year old stag will mate 40-50 hinds comfortably if he does not have to travel too far or has no competing stag nearby. When you put your stag out is your choice (the earlier the better) but be aware it can take 5-10 days to be accepted into the mob before he begins mating.

It is possible to mate far more hinds than this but you risk a greater spread over calving and marked loss in body weight and performance in a young stag.

When the stags are taken out of the hinds minimize fighting by preparing a safe paddock (with plenty of feed, shade and water) by taking the most dominant stag (older) first. Avoid a very hot day.

Do not put stags used for mating with ones that have not been as this can cause excessive fighting.

Animal health

Your stag will have been drenched and coppered before leaving Peel Forest Estate.

As soon as the sires have settled down after the roar it is good practice to give them a drench, copper and a mineral booster. Hemo 15 is one option. This should be done no later than the end of May. He is at his most vulnerable state and parasites need to be addressed as soon as possible after the roar.

Online Velvet auction with bidr[®]

This sale will be hosted by bidr[®] (www.bidr.co.nz) as a live-streamed auction, with online bidding and a live-stream available on sale day, as well as the normal on-farm format.

All intending ONLINE purchasers must register on bidr[®] in advance of the sale date, by visiting the website and using the “sign up” button, adding their contact information and nominating the agency they would like to purchase through and account held with that agency.

The bidr[®] team is always available to help purchasers get signed up and registered, and the HelpDesk is proudly managed in-house from Hamilton.

Please call 0800 TO BIDR (0800 86 2437), or email enquiries@bidr.co.nz for assistance at any point.

Alternatively, contact your local bidr[®] representative:

Conditions for sale

Sale will be conducted in accordance with conditions of sale as set down by South Canterbury Stock and Station Agent's Association, copy of which is exhibited at sale venue, and other terms set out in this catalogue.

Deer will be offered as catalogued, subject only to final draft. Intending purchasers are required to register at the office prior to commencement of sale to obtain buyer's number and advise appropriate stock and station agent.

Each lot shall become the property and responsibility of the purchaser on the fall of the hammer.

Terms are strictly cash unless prior arrangements are made with one of the selling agents.

Sale will be conducted GST exclusive.

Purchaser must give complete delivery instructions to the office, using one of the delivery instruction sheets in the back of this catalogue and receive delivery docket before removing animals.

The vendor will offer a commission of 4% to non-participating companies. Notice should be given in writing to the vendor 24 hours before the commencement of sale.

Special conditions

No animals, embryos or semen sold by Peel Forest Estate or their germplasm, any subsequent progeny or germplasm, including the semen and germplasm of that progeny, may be supplied to any third party without the written permission of Peel Forest Estate.

This condition does not affect normal commercial deer farming or stud farming or their normal sales of semen or embryos as it only applies to entities with the primary function of commercial semen/germplasm activity.

It is a condition of sale of any animals, embryos, or germplasm or semen sold by Peel Forest Estate, that the purchaser agrees to include the following clause as a condition of any subsequent sale or gift of any animal, embryo, semen, germplasm or subsequent progeny or germplasm to a third party – "the purchaser acknowledges that it will not supply any animals, embryos, semen or germplasm to any commercial semen/germplasm marketing or sales entity, and will ensure that this clause is inserted as a condition of any sale or gift of any animals, embryos, semen or germplasm".

Sale

Animals will be penned by 11.30a.m. on the day of the sale. All stags will be velveted

which will remain the property of Peel Forest Estate.

Certificates

Certificate copies of TB accredited free status, Johnes Clear Test and pedigree will be provided to the purchaser and are available for inspection by all potential clients.

General insurance

Insurance facilities will be available at the office.

Herd health status

Peel Forest Estate has completed a re-accreditation TB whole herd test. We have a C10 plus status. All stags have received a veterinarian physical testicular examination.

Guarantee

Should a stag prove to be infertile from natural causes it will be replaced. In all events the Seller will not be held responsible for loss of production or consequential losses on any animal sold. Notification of any dissatisfaction must be made within 12 months of the date of sale. Subject to these terms, the vendor makes no warranty about any animal sold.

Disclaimer

While these details are prepared with the greatest of care Peel Forest Estate accept no responsibilities for omissions and missed descriptions.

Using DEERselect EBVs

What is DEERselect?

DEER Select is the genetic evaluation system for the deer industry. DEERSelect can assist you in your purchase by providing an indication of the relative progeny performance of each stag. DEERSelect is a simple system to use. Each animal has an individual "Breeding Value" (or BV) for certain traits which are related to economic profitability. By comparing BVs between animals, you can assess the relative merits of animals for different traits.

What do the different BVs mean?

BVs are available for growth and antler traits (the system will be expanded over time to consider other economically important traits). The traits reported are:

How do BVs relate to performance?

BVs are expressed in actual units of production (kg of liveweight or velvet), so are directly related to expected impacts on performance. An animal passes on half of its genes to its offspring (the other half come from the other parent). So if we take an example of 2 stags, one with a 12-month weight EBV of +12 kg and the other of +8 kg, and mate them to the same group of hinds, the first stag will pass on an impact of +6 kg to his offspring, while the second will pass on +4 kg. Thus we would expect the offspring of the +12 stag to be 2 kg heavier at 12 months of age than those of the +8 stag (i.e. half of the difference in breeding value).

12-Month Weight (W12BV)

- gives the animal's genetic merit for weight at twelve

months of age in kg. For example, a W12eBV of +10.0 means that the animal carries genes to make it 10 kg heavier than the base population at 12 months of age. For venison production, this is the trait deer farmers are paid on so should receive significant emphasis if purchasing genetics for venison.

New EBV Conception Date (CDeBV)

Negative value indicates earlier conception and calving date to the average and possibly higher conception rate especially in first calving hinds.

Mature weight (MWTBV)

- This compares the mature weight of hinds (i.e. 3+ years). Again, the values are expressed in kg live-weight. This trait is economically important for both venison and velvet production, as it is an indicator of how much feed is required to maintain an adult animal. Although it is expressed on a breeding hind basis, it is closely related to mature weight of adult stags as well.

This will maximise the profit per hectare of your velvet enterprise by producing more velvet per stag and running stags at higher stocking rates.

This means that if genetics are sought to breed replacement hinds, 12-month weight needs to be balanced with the mature weight to keep hind size (and hence feed costs) at an appropriate level. There may be considerations with handling ability too, depending on your individual preference. Mature weight is not economically important for terminal sires (concentrate on 12-month weight).

Mature Velvet Weight (MVWBV)

This compares the weight of velvet produced by a mature velvet stag - values are expressed as kg of velvet cut at optimal time.

The MVWBV is a significant driver of velvet profitability and should be considered along with likely impacts on velvet grade when comparing animals.

Eye Muscle Area (EMAcBV)

- (sq cm) is calculated from measurements from live animal ultrasound scans and from abattoir carcass data. This EBV estimates genetic differences in eye muscle area. More positive EBVs indicate better muscling on animals. Sires with relatively higher EMA EBVs are expected to produce better muscled and higher percentage yielding progeny at the same carcass weight than will sires with lower EMA EBVs

Weaning Weight (WWTBV) -

The WWTBV gives the animal's genetic merit for weight at weaning, in kg. For example, a BV-WWT of +3.0 means the animal carries genes to make it 3 kg heavier than the base population at weaning.

Carla (CARLARBV)

- CARLARBV is a research breeding value that indicates the individuals' immune response to ingesting infective parasites at around 10 months of age. We do not know exactly if, or how Carla provides protection against parasites in deer, but in lambs a higher Carla response is correlated with lower faecal egg counts (FEC), and lower FEC in turn produces less infective parasites on the pasture.

Bender**

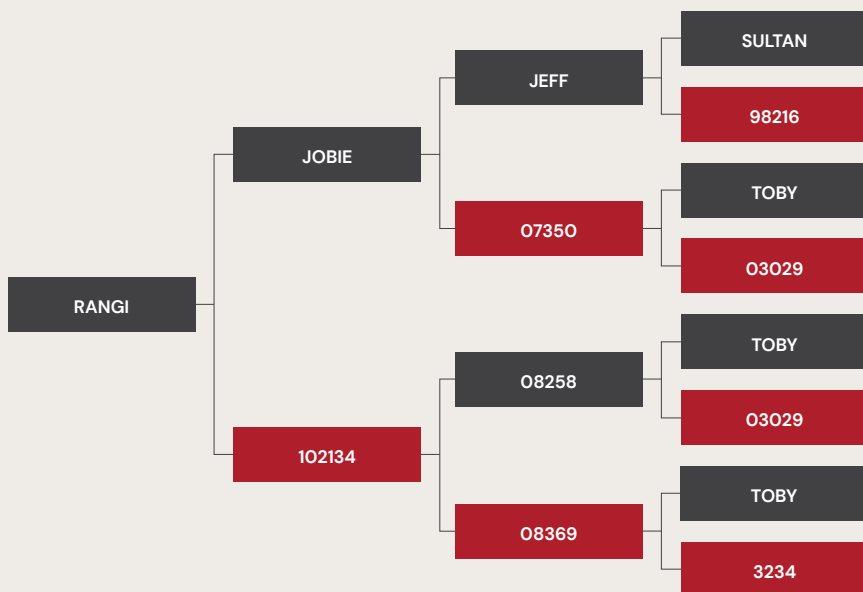

Rangi

Birthdate: 2016

Rangi was retained as a 3yr old to remain in the stud after cutting an impressive 10.17 kg of stunning velvet. He came 2nd place in the National Velvet competition in 2019 in the 3yr old section. With his high growth rates, lovely temperament and correct phenotype he is now a pivotal sire for both the Forrester and Velvet lines.

Rangi - 3yrs old

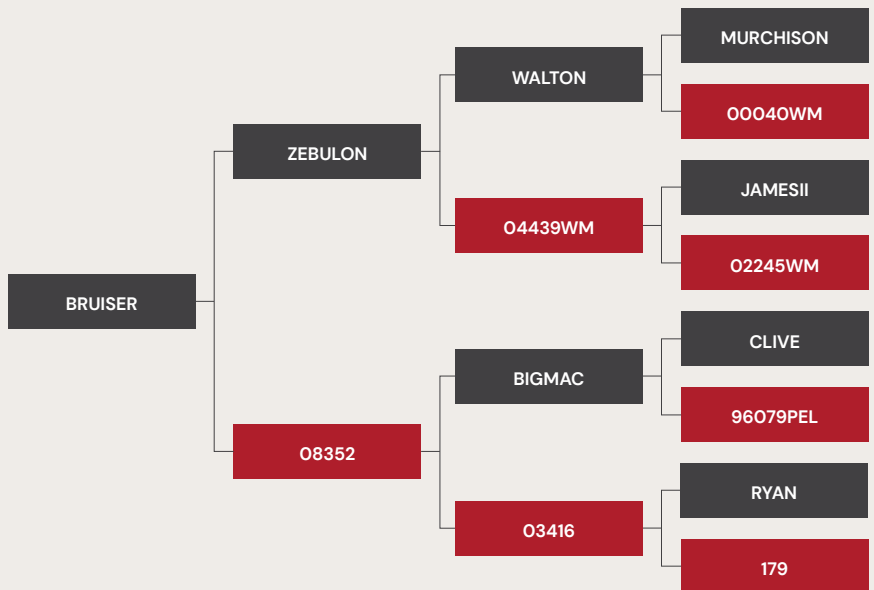

Bruiser

Birthdate: 2017

Bruiser was retained as a 3-year-old for his exceptional phenotype, standing out from the crowd with an impressive 9.25 kg of velvet. He is now cutting over 12kg each year. His calm temperament and ease of handling in the yards further highlight his appeal. With pure English bloodlines complemented by a touch of diversity, Bruiser brings both strength and genetic depth to the Forrester and Velvet program. We are excited to see the lasting impact of his impressive traits on our herd's future.

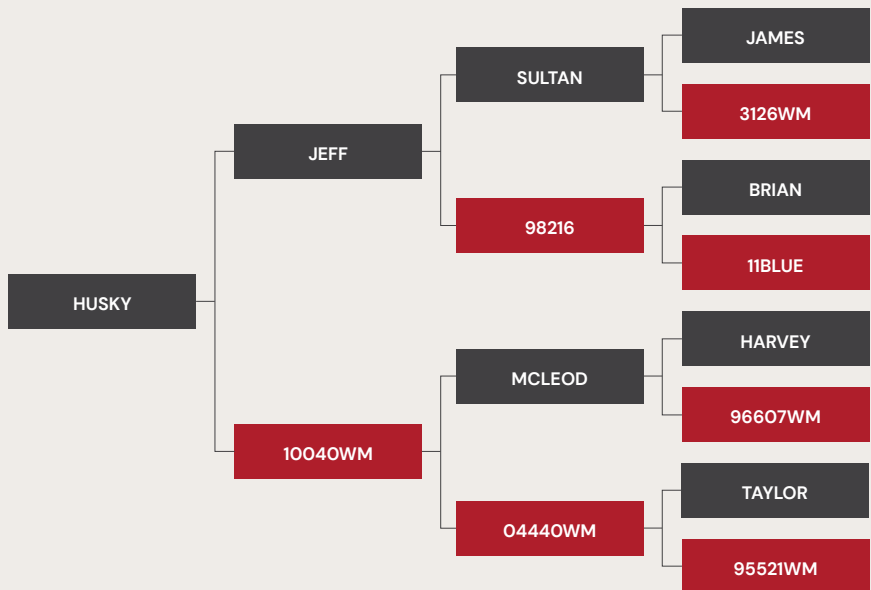

Bruiser – 9.25kg at 3yrs

Husky

Birthdate: 2016

Husky is a stunning Pure English stag that is pivotal to both our Forrester line as well as our Velvet line. Retained as a 3yr old, he has all the traits we look for in a master sire at Peel Forest. He is as quiet as a lamb, exceptional conformation, high Carla for parasite resilience and cut an impressive 9.41kg at 3yrs. He is truly a pleasure to handle through the yards and is leaving outstanding progeny in his wake. The future of Peel Forest is bright with Husky's influence filtering through.

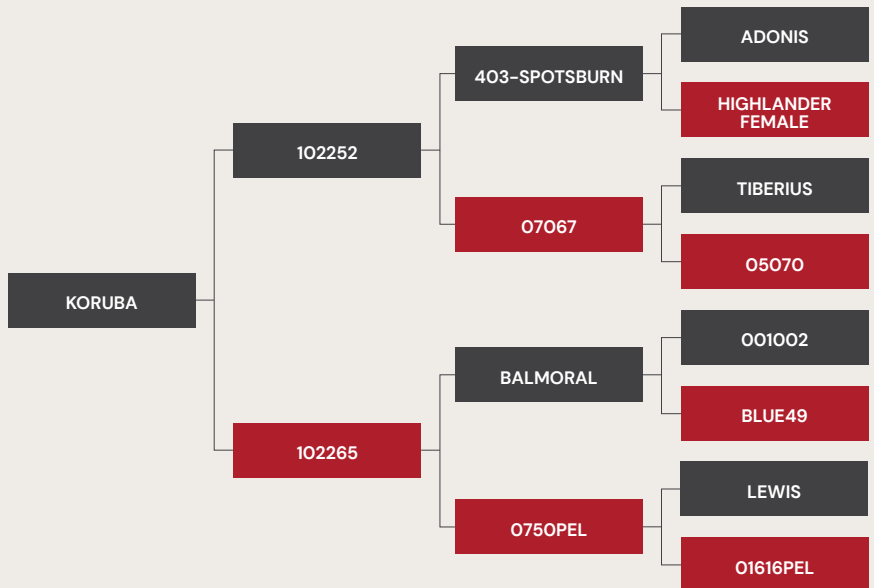

Koruba

Birthdate: 2013

Koruba put his hand up as a sire when he cut a perfect 10.1kg of velvet at 4yrs out of the commercial line. (see photo). At the 2020 Nationals Koruba came second in the Open Red section cutting 14.12kg with massive beam circumference of 32/28cm.

In 2020 he cut 15.89kg and 12.6kg of regrowth with a total yield of 28.49kg for the season.

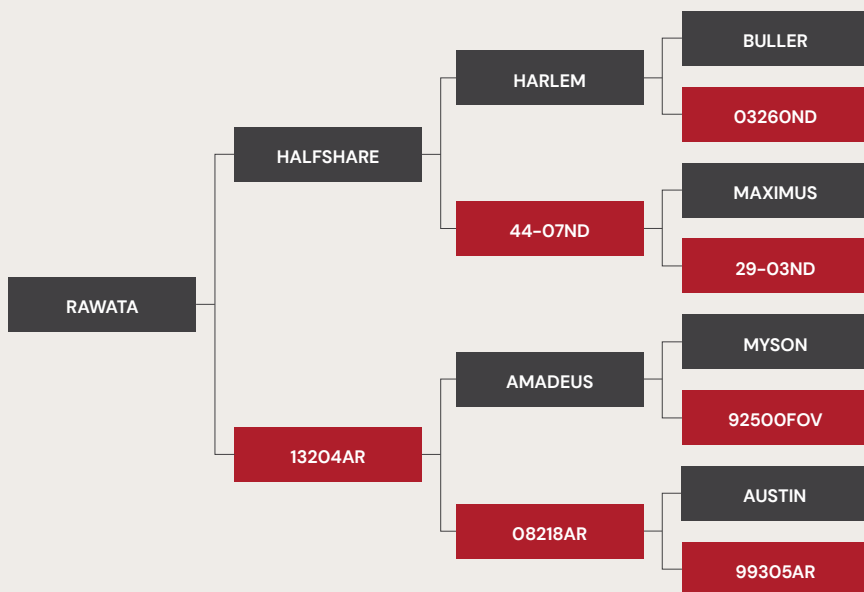

Rawata

Birthdate: 2015

Rawata was purchased from Arawata Deer Stud as a 2yr old where he cut a lovely 6kg velvet head. He moved up to Peel Forest and cut a stunning 8.8kg head at 3yrs. We were extremely impressed with his temperament. He is a super quiet, friendly stag. At 5yrs of age he cut an impressive 13.49kg. Used in both the Forrester and Velvet lines he is influencing these bloodlines with great promise, with one of his 3yr olds cutting 11.41 kg of tidy velvet in 2022 (lot 2).

With him continually cutting +12kg of velvet he is a true sire for us at Peel Forest.

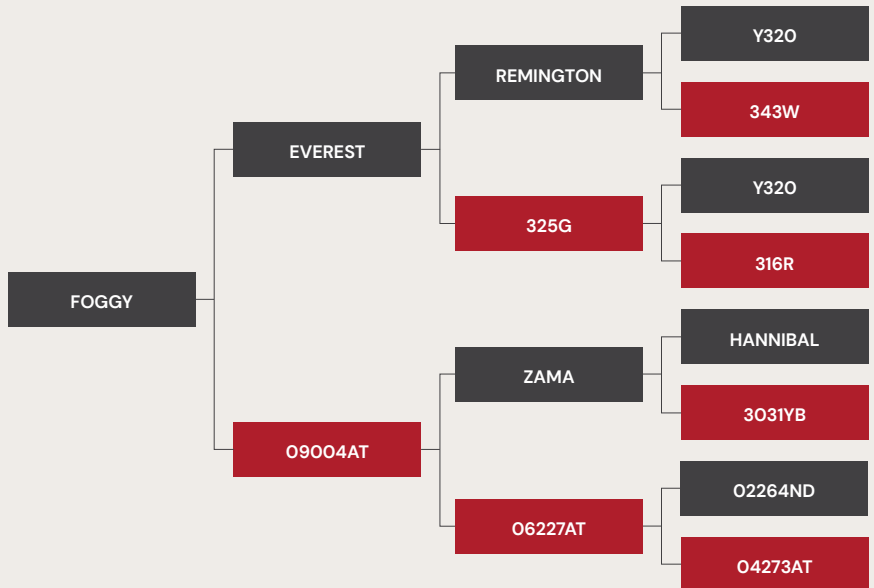

Foggy

Birthdate: 2013

Born in 2013, Foggy (52-13) was purchased in partnership by the Pearse, Hood and Robert's Families from Altrive Stud at the 2017 sale.

He was Lot 1 and cut an impressive 8.3kg as pictured here. Foggy also came 2nd at the National Velvet competition with this 3yr old head. We had the opportunity to buy some semen and used him over some of our best Windermere bloodlines in an ET programme.

We had a very successful flush ending up with 20 males who averaged 7.99kg at 3yrs old. One of which cut 11.2kg (Enzo) who we sold to the Ruperts'.

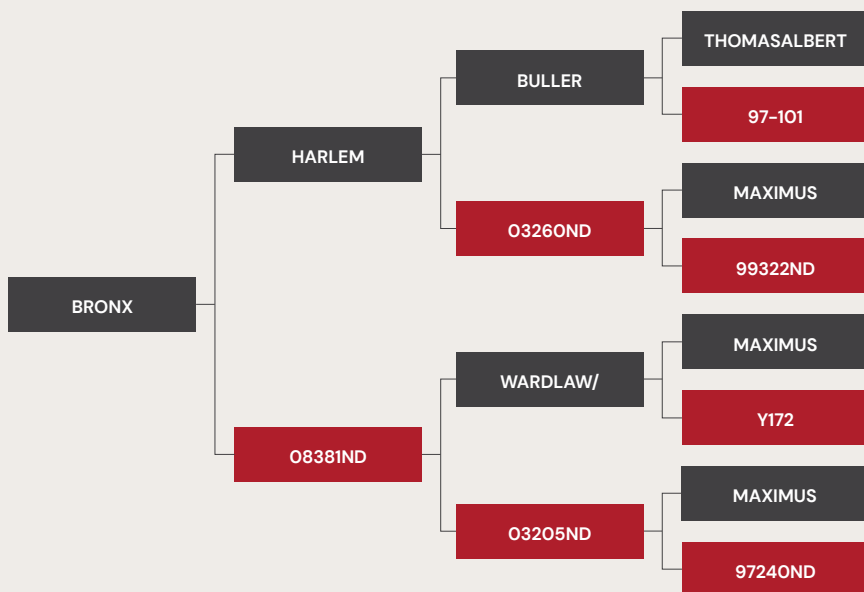

Bronx

Birthdate: 2013

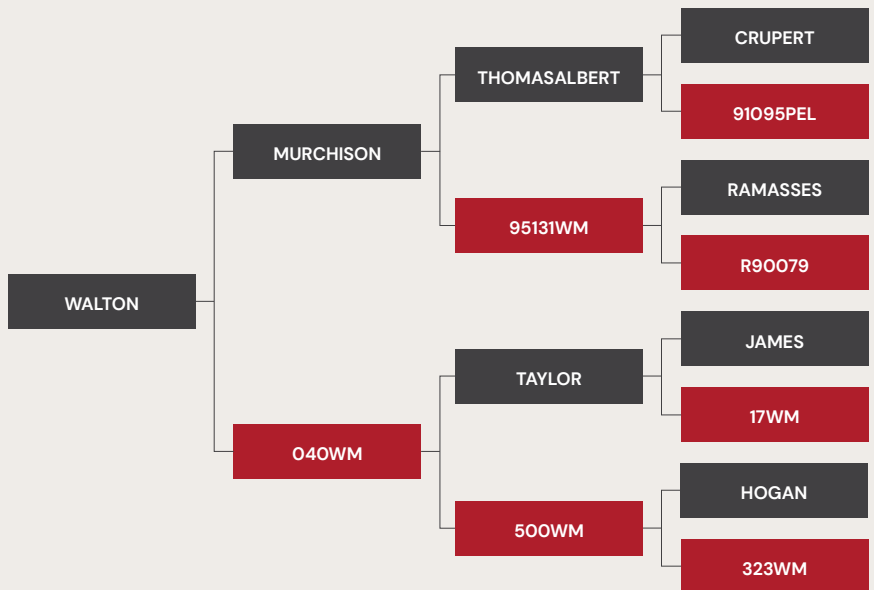

Owned and bred by Netherdale, we have used semen to introduce Bronx into our bloodlines. Bronx cuts some serious weights with his heaviest being 22kg at 6yrs old.

As a 3yr old he won the National's with a lovely 8.42kg and went on the following year to cut 20.64kg of OG grade.

Walton

Walton is undoubtedly one of the most outstanding stags to ever come out of the Windermere stud. He is a Pure Warnham with very clean, heavy velvet with excellent heritability leaving some powerful young stags in his wake. Walton won the National Velvet Competition as a 2 year old cutting an impressive 5.8kg of SA velvet. At 3 years he cut 8.06kg SA2 and 4 years 9.9kg of SA2. At 7yrs he cut 12.6kg SA2 of very clean velvet.

Fenton

Birthdate: 2019

Fenton shows impeccable velvet style with impressive weight. His velvet epitomizes competition standards, boasting correct spacing, and very thick beam measuring 28cm in thickness at 4yrs and cutting 8.8kg at 3yrs and 13kg at 4yrs. He exceptionally symmetrical and pristine antler conformation

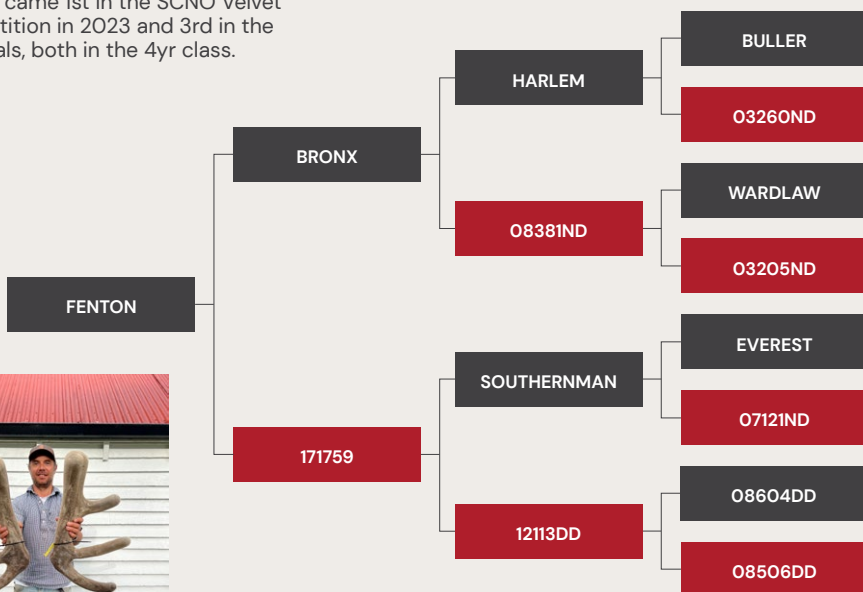

Within his pedigree lies a prestigious lineage of sires, featuring the illustrious Bronx paired with a Southerner hind, and the esteemed Delmore Deer genetics on the lower side. 12113DD is a full sister to Quinn and O8506DD is the Dam of Quinn.

The infusion of these distinguished bloodlines promises to revolutionize your own herd, yielding generous rewards with thick, immaculately clean, and clean grades of velvet.

Fenton came 1st in the SCNO Velvet competition in 2023 and 3rd in the Nationals, both in the 4yr class.

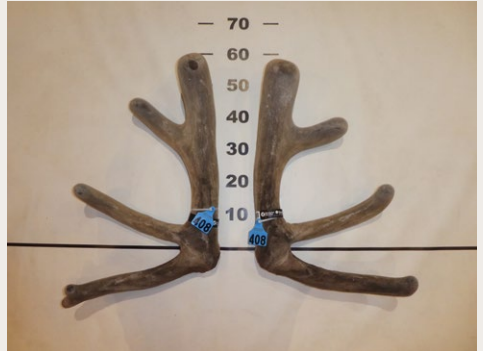

Fenton - 4yrs old

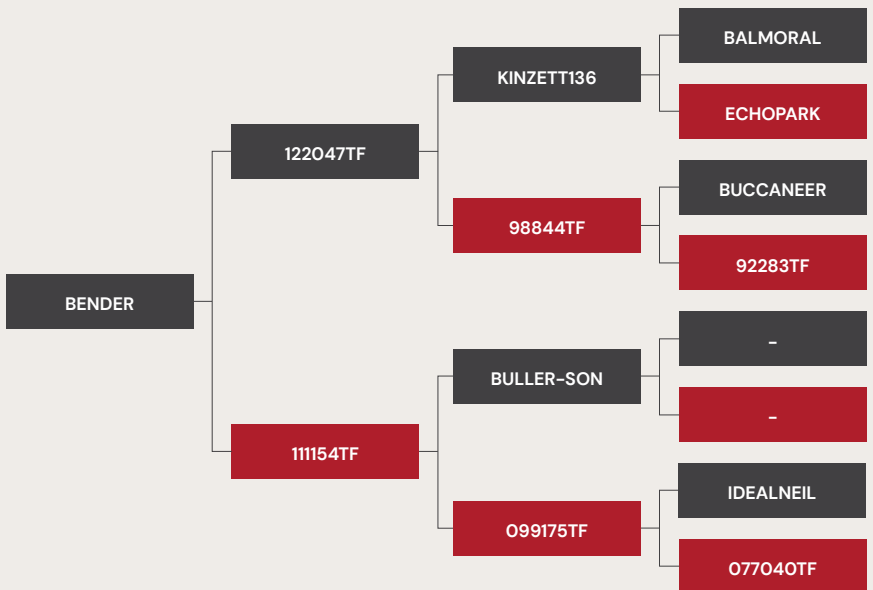

Bender

Owned by Greg Oliver, we purchased some semen and used in our ET program after seeing his head on display at the Nationals in 2019. Bender won the 5yr class as well as Champion of the Open section. A very impressive velvet head.

Bender – 13.38 kg at 5yrs

This stag is truly exceptional. With impeccable, mirror-image velvet, well-rounded tops, strong lower tynes, and perfect spacing, he's a standout. He won 1st place in the SCNO 3-year-old velvet competition against top-tier contenders and is poised for success at the Nationals. In addition to his flawless velvet, he's a Pure English stag with outstanding growth and parasite resilience. If he doesn't fetch an acceptable price, he'll remain in the stud—a brilliant all-rounder.

Dam 192061 had two 3yr sons this year cutting 9.15kg and this stag 9.29kg. Granddam 11113WM is easily our best hind. She produced lot 1 in 2023 selling for \$38,000 (9.04kg), lot 1's full brother sold privately after the sale for \$50,000 who cut 11.2kg and she had 6 x 3yr old stags last year from an ET flush who averaged 9.24kg. She has also produced 2 other sale stags cutting 7.5kg in 2017 and 7.2kg in 2018. She has crossed well with Cruise317 and then Koruba over this to come up with what you see here. Awesome genetics and awesome head.

A fantastic cross with Koruba over 13130, a full sister to Husky, Winston, and Tonka. She has produced numerous sale stags, and her daughter 16801 is a standout, having produced Tom Cruse's MARK and the 12kg head in this sale. With nearly 9kg of exceptional velvet, this stag has both the breeding and velvet quality to match. 1684 boasts impressive spacing and length - exactly the type of velvet processors are seeking.

The dam line here is exceptional. 16801 is the mother of MARK, sold to Tom Cruise for \$67,000 in the 2022 sale. Mark (181671) cut 9.80kg at 3 years, 12kg at 4 years winning the National 4-year-old class - his mass is next level. 16801 is undoubtedly one of our best hinds, producing 3-year-olds cutting 9.80kg, 7.40kg, and 12.35kg. Granddam 13130, a full sister to Husky, Winston and Tonka, brings strong genetics, and crossing this damline with Rangi results in pure grunt, as seen in 818's 12.35kg.

Another great pedigree with dam 14201 (ET donor) who has 5 x 3yr olds cutting and 7.32kg, 7.25kg, 7.08kg, 7.26kg and 6.50kg at 3yrs. She also is the dam of 162107 who sold to Emmet Hobbs as a 3yr old cutting 8.96kg. 1905's velvet is very nice clean and even velvet. A strong pedigree with strong velvet.

One Year Hinds For Sale

PEEL FOREST
ESTATE

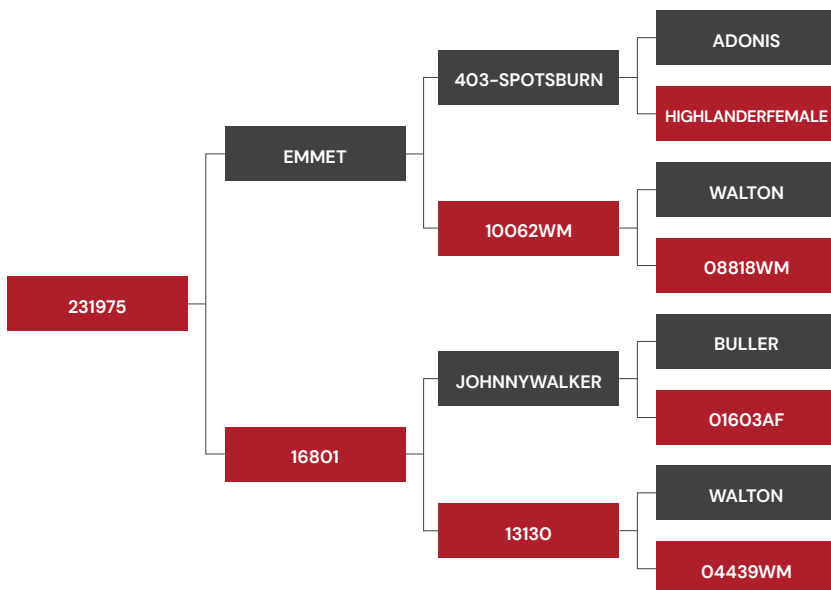

Lot #26 - 231975 1 Year Hind

Mark- 9.80kg at 3yrs

Weight 1st Dec	84 kg
W12BV	4.55
MVWBV	3.91

STAR LOT! This is a full sister to the stag MARK who we sold to Tom Cruse in the 2022 sale for \$67,000. 181671 (Mark) cut 9.80 kg at 3yrs, 12kg at 4yrs and winner of the National 4yr old class and has just cut 21kg this year! His mass is next level. EMMET is cutting over 14kg with 30cm beam. Unbelievable mass. 16801 undoubtedly one of our best hinds. She has produced 3yr olds cutting 9.80kg, 7.40 kg and 12.35kg in this years sale – Lot 4. We ET'd 16801 to EMMET to reproduce 'Mark' so here is your chance to grab one of the top hinds in the country!

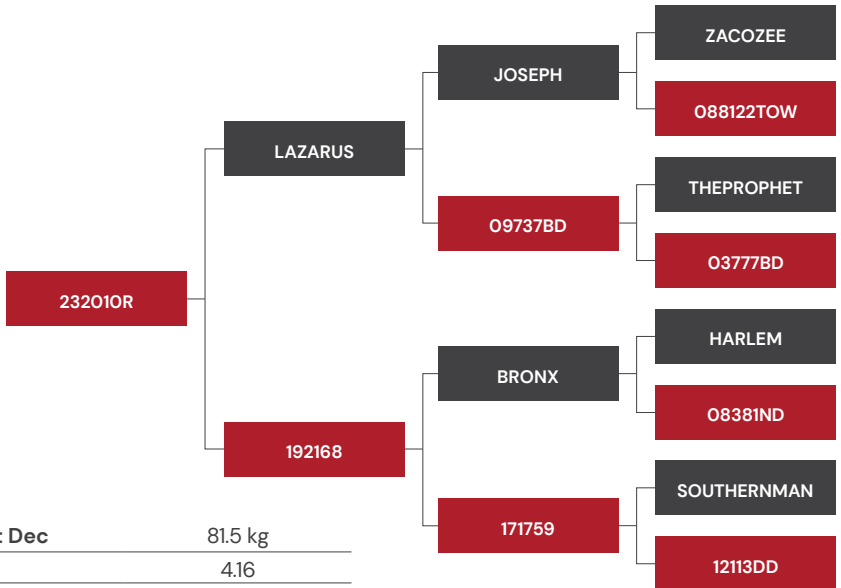

Lot #27 - 232010R 1 Year Hind

Lazarus -13.05kg

Fenton at 3yrs

Weight 1st Dec	81.5 kg
W12BV	4.16
MVWBV	1.63

STAR LOT! LAZARUS over a full sister to FENTON. Need I say anymore? This is as good as we can offer here at Peel Forest and your opportunity to grab exceptional velvet genetics.

Lot #28 - 232125 1 Year Hind

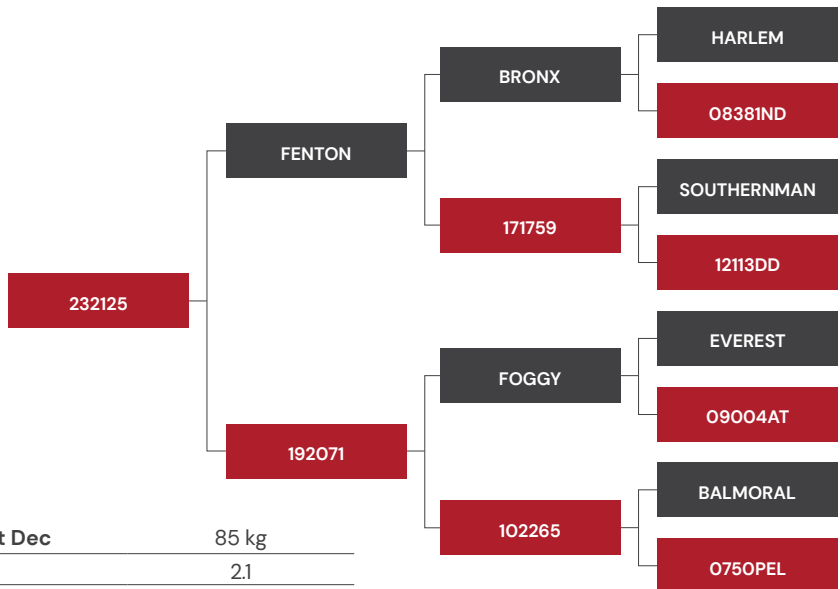

Lot 1 2023 sale – 9.06kg

Koruba – 15.89kg

Fenton at 3yrs

Weight 1st Dec	85 kg
W12BV	2.1
MVWBV	3.39

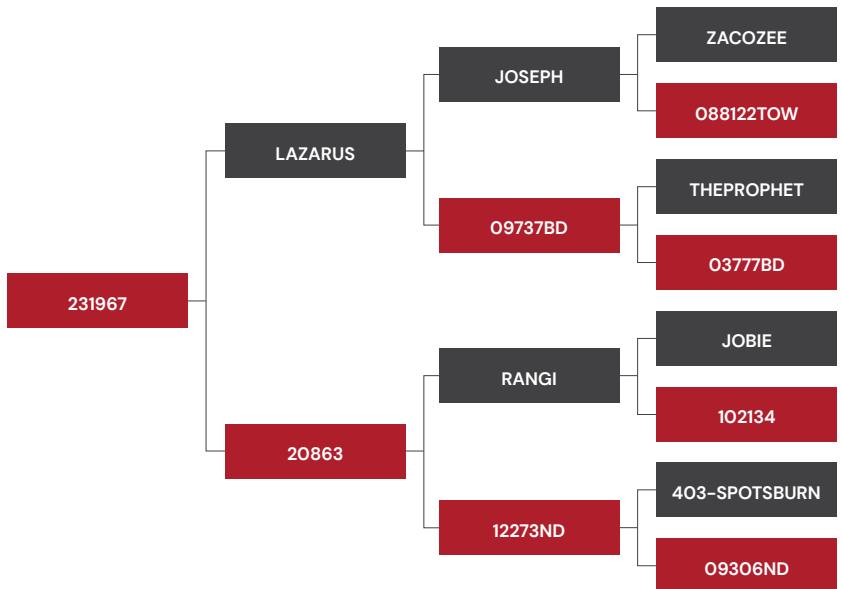

Here is a very special hind. Dam 192071 is a full sister to Lot 1 in the 2023 sale who was a very tidy 9.06kg selling for \$35k. Granddam 102265 is KORUBA's mother who cut 15.89kg and followed by 12.6kg of regrowth, totalling 28.49kg for the season.. Cross this bottom side with FENTON who is our main master sire. Fenton cut a superb 8.8kg at 3yrs, 13kg at 4yrs winning the SCNO comp and 3rd in National 4yr class and this year cutting an impressive 14.5kg at 5yrs. You don't get much better pedigree than this..

Lot #29 - 231967 1 Year Hind

Weight 1st Dec	86 kg
W12BV	12.09
MVWBV	1.95

Lot 2 at 2023 sale – 11.41kg

This is a very special hind. Lazarus needs no introduction crossing him over a full sister to 191422, lot 2 at the 2023 sale who cut 11.41kg. She (20863) has a 2yr old coming this year and we ET'd her last year to Lazarus. I expect this hind will produce super heavy, tidy velvet. RANGI is one of our top sires at PF. He cut 10.17kg of nice velvet at 3yrs coming 2nd in the Nationals 3yr class. He is producing 7kg 2yrs olds now and we retained one of his sons last year cutting 10.32kg at 3yrs.

Lot #30 - 231977 1 Year Hind

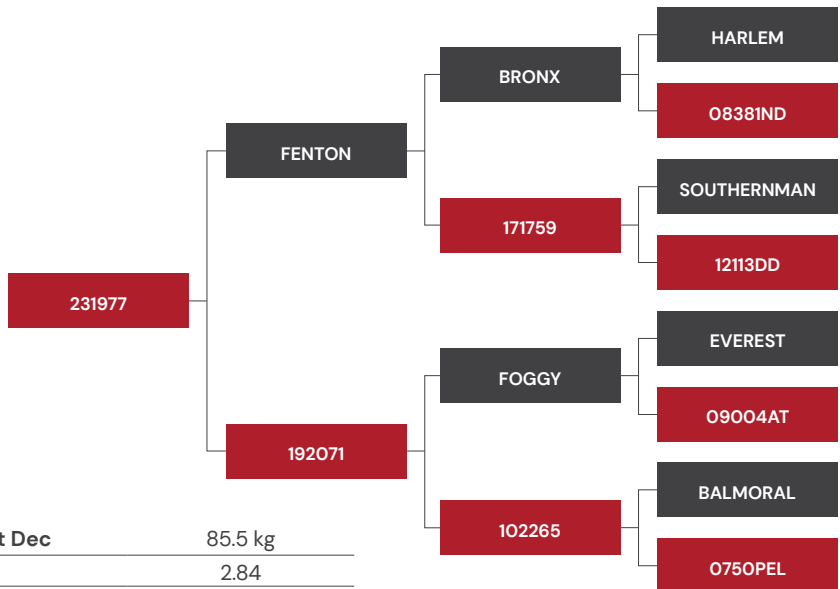

Lot 1 2023 sale – 9.06kg

Koruba – 15.89kg

Fenton at 3yrs

Weight 1st Dec	85.5 kg
W12BV	2.84
MVWBV	3.41

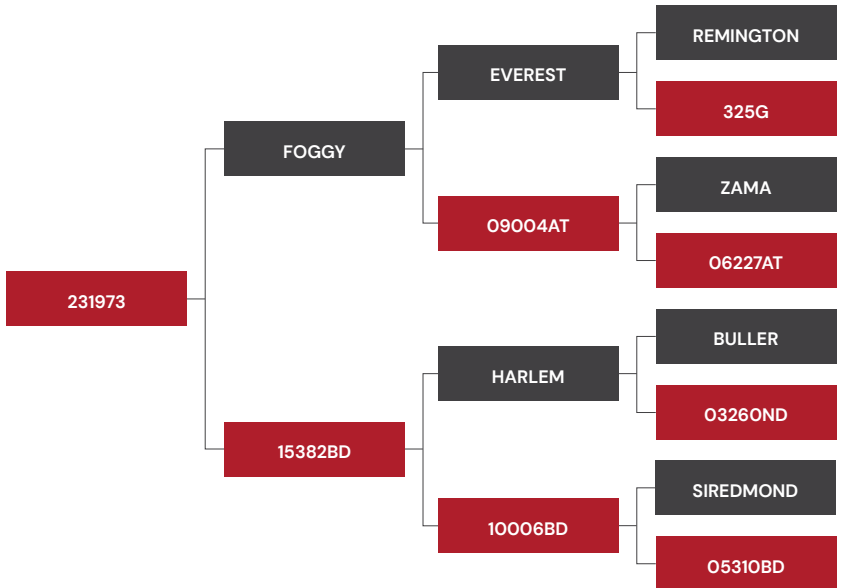

Here is a very special hind. Dam 192071 is a full sister to Lot 1 in the 2023 sale who was a very tidy 9.06kg selling for \$35k. Granddam 102265 is KORUBA's mother who cut 15.89kg and followed by 12.6kg of regrowth, totalling 28.49kg for the season.. Cross this bottom side with FENTON who is our main master sire. Fenton cut a superb 8.8kg at 3yrs, 13kg at 4yrs winning the SCNO comp and 3rd in National 4yr class and this year cutting an impressive 14.5kg at 5yrs. You don't get much better pedigree than this..

Lot #31 - 231973 1 Year Hind

Foggy

Weight 1st Dec	91 kg
W12BV	5.27
MVWBV	1.71

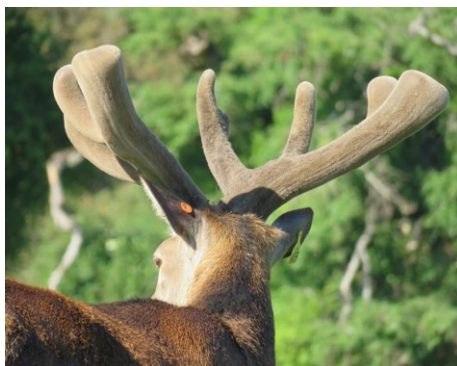

A fantastic hind on offer here. We purchased one of Brock Deer's 'Star lots' 15382BD. 10006BD (B6) has had 8x 2yr sons and none under 4.3kg. She has had a number of sale stags. Then you have AXEL's dam down the bottom (05310BD). FOGGY has produced numerous top sale stags over the years for us. Too many to list although ENZO is probably his best achievement who cut 11.3kg at 3yrs and sold to Rupert Red Deer.

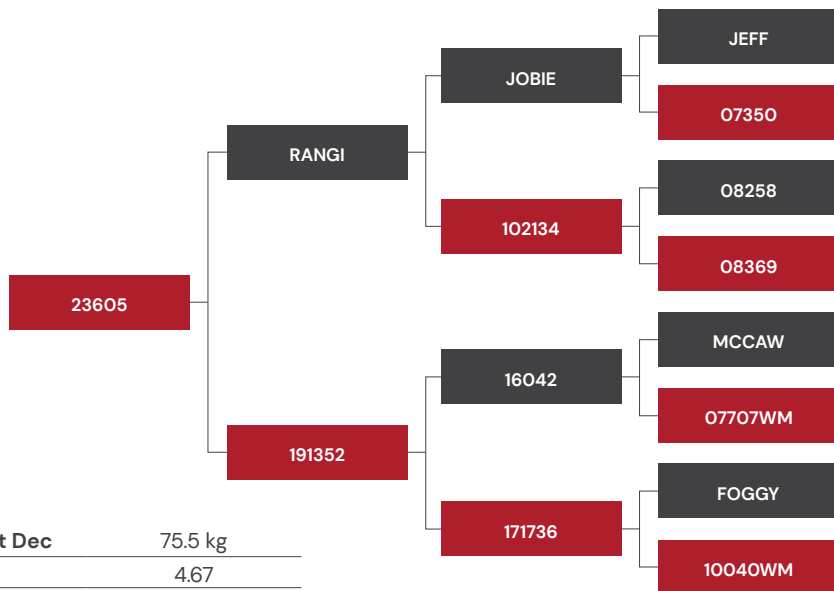

Lot #32 - 23605 1 Year Hind

Rangi – 10.17kg at 3yrs

Husky – 9.41kg at 3yrs

Weight 1st Dec	75.5 kg
W12BV	4.67
MVWBV	3.03

RANGI is one of our top sires at PF. He cut 10.17kg of nice velvet at 3yrs coming 2nd in the Nationals 3yr class. He is producing 7kg 2yrs olds now and we retained one of his sons last year cutting 10.32kg at 3yrs. 16042 cut 7.45kg at 3yrs. 191352 has a 2yr old this year. 171736 is an ET donor who has a son cutting 7.75kg at 3yrs this season. 10040WM is a super hind who is HUSKY and WINSTONS mother.

Lot #33 - 23038 1 Year Hind

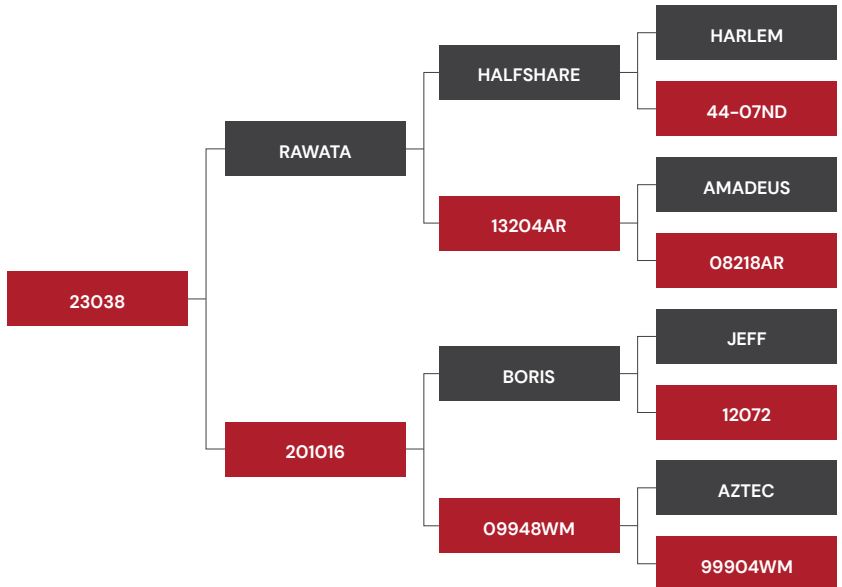

Rawata 13kg

Weight 1st Dec	82 kg
W12BV	2.63
MVWBV	3.47

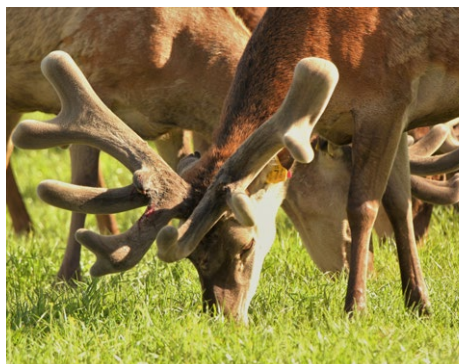

BORIS – 10.26kg at 3yrs

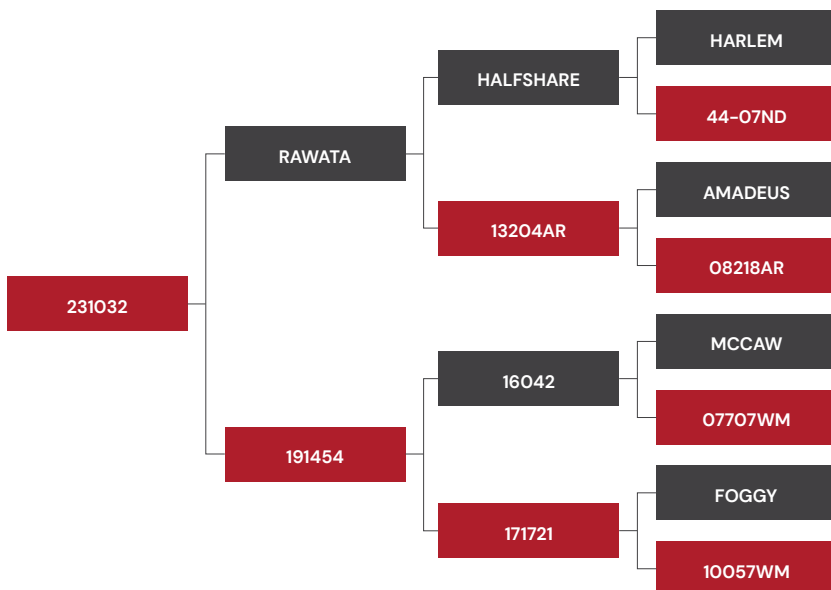

RAWATA was purchased from Arawata Deer Stud a few years back. He is continually cutting over 13kg of nice styled velvet and came runner up at the nationals with a 13kg head. His best 3yr old son cut 11.41kg lot 2 in 2022. BORIS cut an impressive 10.26kg of lovely velvet at 3yrs and cutting 17.12 kg this season. Some grunty influence on the bottom with AZTEC's huge beam influence. 09948WM had a 7.8kg sale stag. Very heavy weighed genetics in this hind.

Lot #34 - 231032 1 Year Hind

Rawata 13kg

Weight 1st Dec	97 kg
W12BV	7.21
MVWBV	3.53

RAWATA was purchased from Arawata Deer Stud a few years back. He is continually cutting over 13kg of nice styled velvet and came runner up at the nationals with a 13kg head. His best 3yr old son cut 11.41kg lot 2 in 2022. 16042 cut 7.45kg at 3yrs. Dam 191454 has no sons. 171721 has a 3yr old cutting 6.8kg and is a full sister to 10057WM's two sons in 2022 sale cutting 8.76kg and 7.86kg.

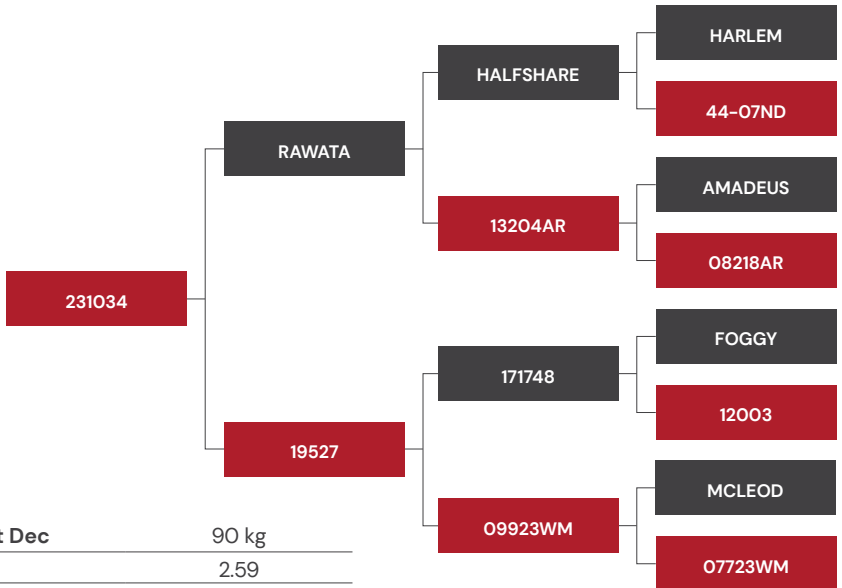

Lot #35 - 231034 1 Year Hind

Tom – 6kg at 2yrs

Rawata 13kg

Weight 1st Dec	90 kg
W12BV	2.59
MVWBV	3.03

RAWATA was purchased from Arawata Deer Stud a few years back. He is continually cutting over 13kg of nice styled velvet and came runner up at the nationals with a 13kg head. His best 3yr old son cut 11.41kg lot 2 in 2022. 171748 was retained as a sire and is cutting a tidy 11.40 kg. 12003 is one of our best hinds with two sons in this years sale cutting 9.93kg and 7.75kg and 8.2kg sale stag in 2018. 19527 has a 2yr stag coming this year. 09923WM is the mother of TOM who cut an immaculate 6kg 2yr head. She also has 2 sons cutting over 10kg in the commercial herd.

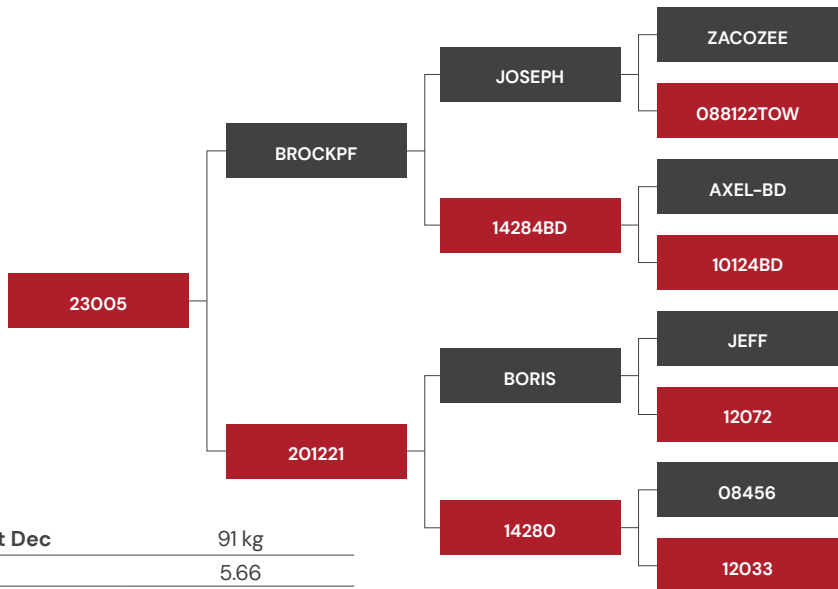

Lot #36 - 23005 1 Year Hind

BrockPF – 11kg

BORIS – 10.26kg at 3yrs

Weight 1st Dec	91 kg
W12BV	5.66
MVWBV	1.72

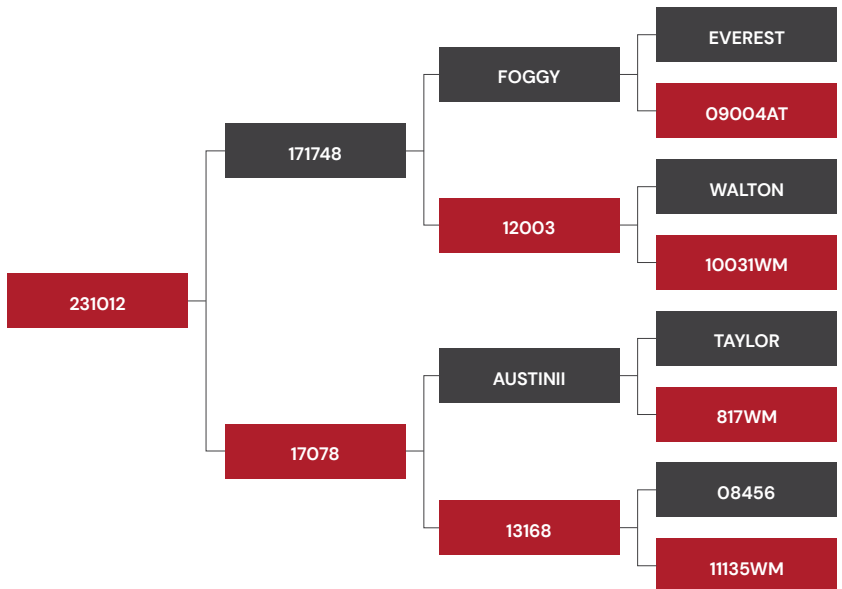

BrockPF was purchased from Brocks in 3 seasons ago (2018 born) cutting a very clean 8.33kg at 3yrs. He is now cutting 11kg of clean velvet. BORIS cut an impressive 10.26kg of lovely velvet at 3yrs and cutting 17.12 kg this season. No sons from 201221 and 14280 has two sons cutting 9.16kg and 8.65kg.

Lot #37 - 231012 1 Year Hind

171748 – 11.39kg

Weight 1st Dec	79.5 kg
W12BV	-3.76
MVWBV	2.44

171748 was retained as a sire and is cutting a tidy 11.40 kg. 12003 is one of our best hinds with two sons in this years sale cutting 9.93kg and 7.75kg and 8.2kg sale stag in 2018. 17078 has all female progeny. Some famous bloodlines with full brother to the grunty AUSTIN on the bottom side.

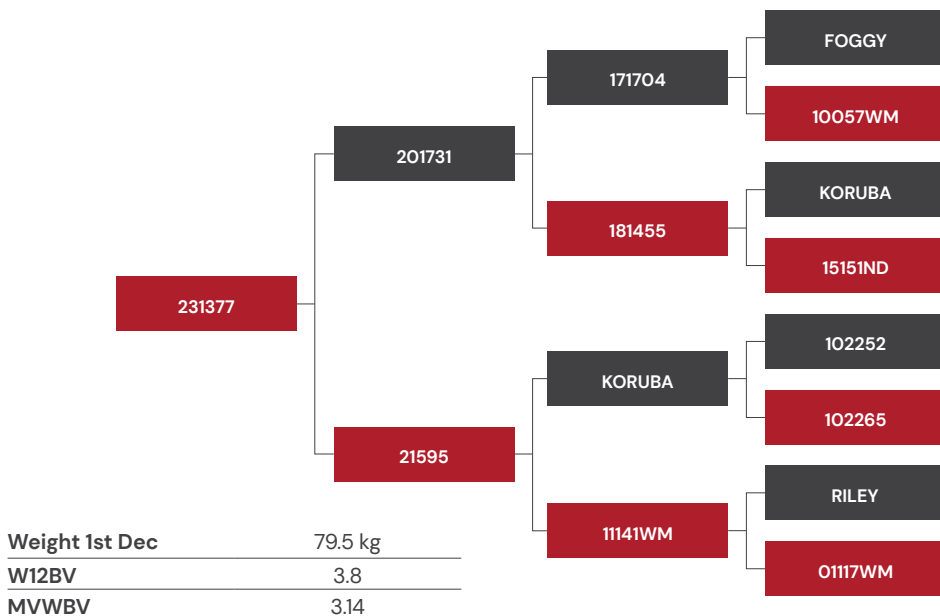

Lot #38 - 231377 1 Year Hind

201731 – 8kg at 3yrs

Koruba – 15.89kg

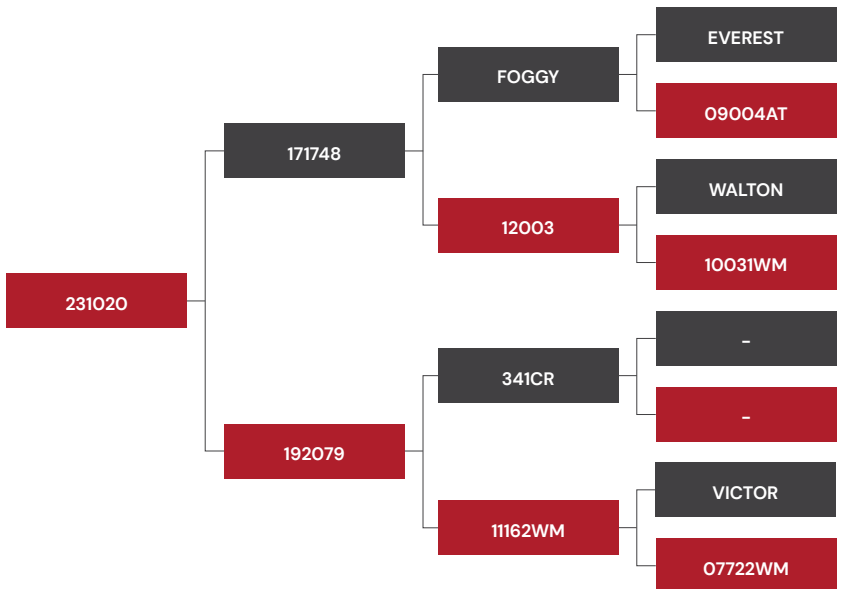

201731 cut a sharp 8kg 3yr head as pictured and now at 4yrs cutting 9.5kg. This hind is 21595's first progeny. Huge grunt with KORUBA in the mix over an old Windermere hind 11141WM with a sale stag cutting 7.50kg and 01117WM is a Taylor/Hogan and is JIMBOB's mother.

Lot #39 - 231020 1 Year Hind

Weight 1st Dec	83.5 kg
W12BV	0.72
MVWBV	3.28

171748 was retained as a sire and is cutting a tidy 11.40 kg. 12003 is one of our best hinds with two sons in this years sale cutting 9.93kg and 7.75kg and 8.2kg sale stag in 2018. 11162WM is YORKSHIRE's mother and has other sons cutting 10kg + in our commercial herd. Crossed her with Tom Cruse genetics to produce 1920279 who has a 2yr coming this year.

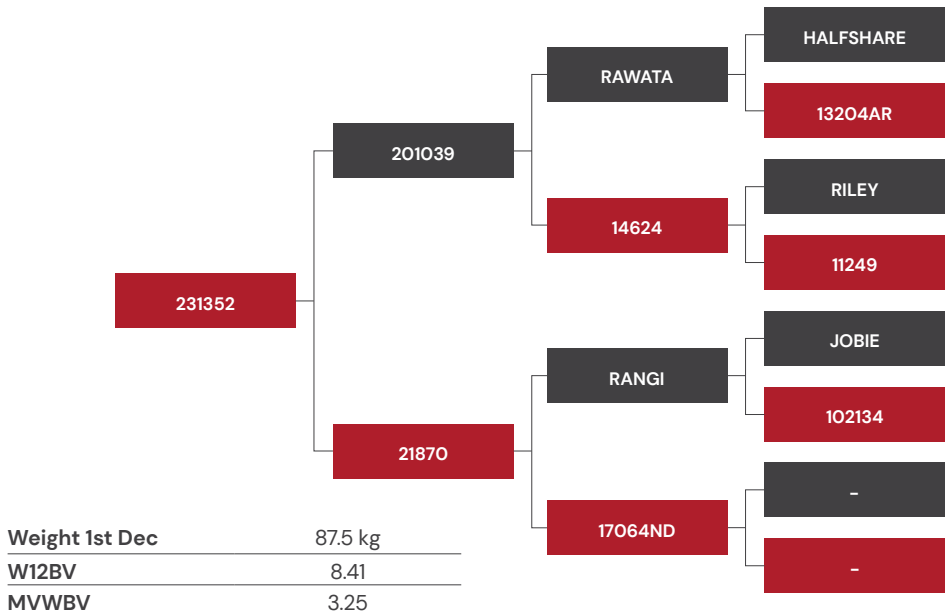

Lot #40 - 231352 1 Year Hind

Rangi – 10.17kg at 3yrs

Rawata 13kg

This hind is progeny of a lovely styled RAWATA son over a grunty RANGI daughter. Purchased 10064ND from Netherdale who I believe is a 403 Spotsburn daughter. She has a spiker on the ground. No sons yet from young Dam 21870. This hind isn't proven but could be very good.

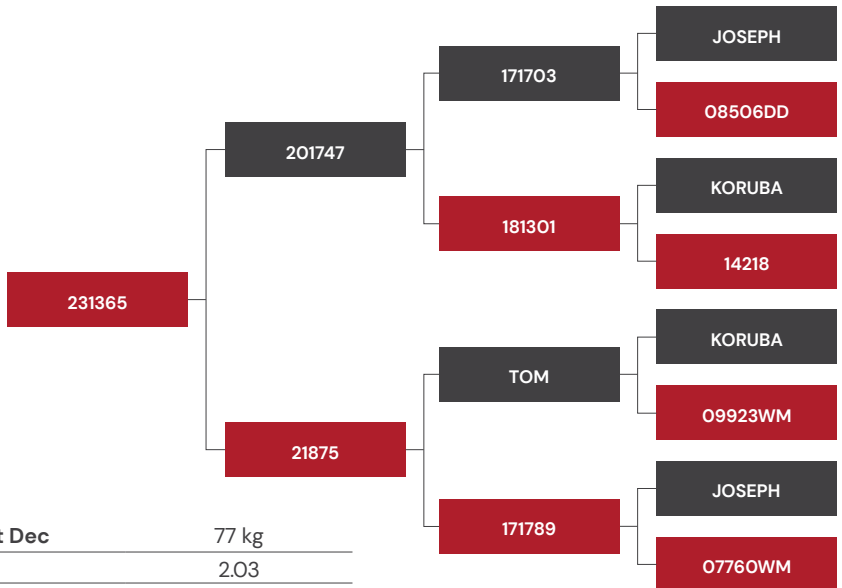

Lot #41 - 231365 1 Year Hind

201747 – 8.17kg at 3yrs

Tom – 6kg at 2yrs

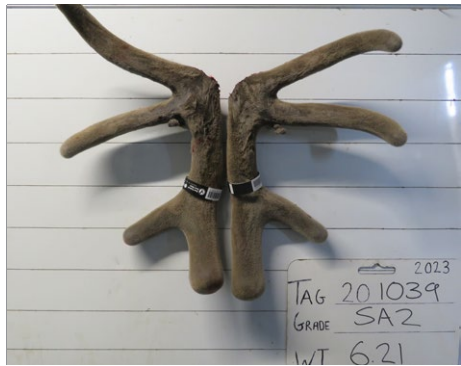

Weight 1st Dec	77 kg
W12BV	2.03
MVWBV	3.34

Sire 201747 cut a really nice 8.17kg at 3yrs as you can see from this photo. Dam is too young to have son as this hind is her first progeny. TOM cut an impressive 6kg at 2yrs of very nice velvet. He now resides on one our clients properties. 171789 is one of our top hinds with one flush of 2019 born stags cutting 7.89kg and 7.35kg sale stags and their two brothers now cutting 13.8kg and 10.49kg at 5yrs. She also has a 4yr old cutting 10.91kg this year. O7760WM an ET donor with numerous winners.

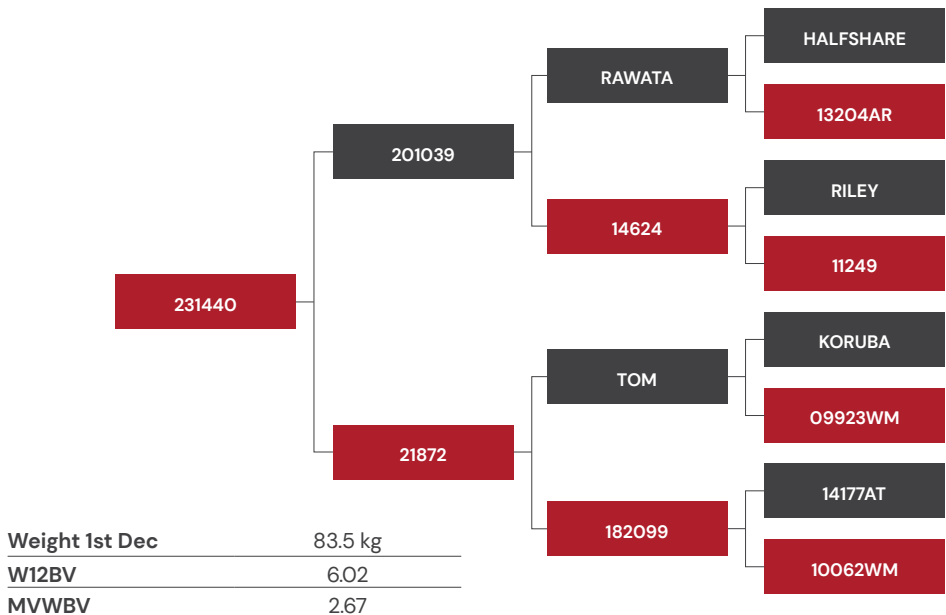

Lot #42 - 231440 1 Year Hind

Tom - 6kg at 2yrs

201039 - 6.21kg at 3yrs

201039 as pictured at 3yrs over a young TOM daughter. TOM cut an impressive 6kg at 2yrs of very nice velvet. He now resides on one our clients properties. 182099 only son is a 2yr coming this year. 14177AT is an Everest son. 10062WM is the mother of EMMET who is the sire of MARK (Lot 1 at the 2022 sale 9.80kg for \$67K) that Tom Cruse bought from us. MARK cut 21kg this year I believe.

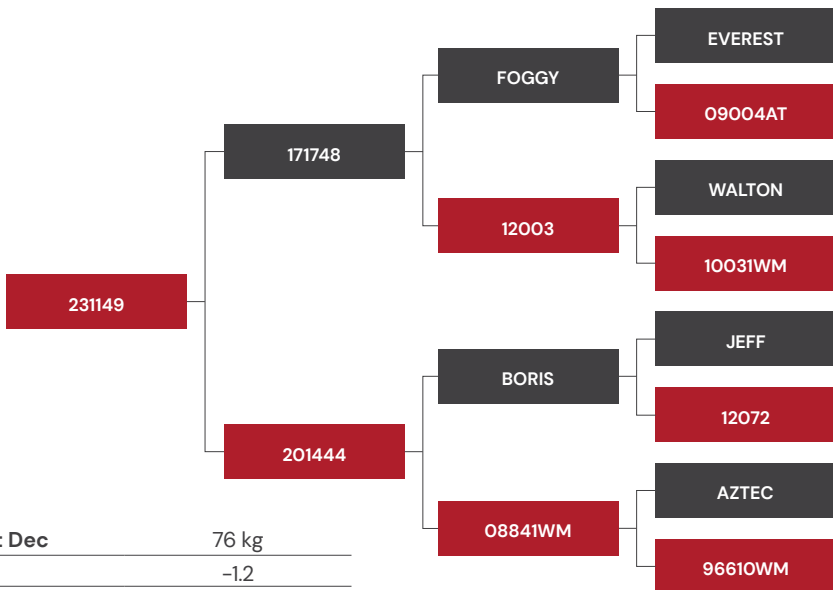

Lot #43 - 231149 1 Year Hind

171748 – 11.39kg

BORIS – 10.26kg at 3yrs

Weight 1st Dec	76 kg
W12BV	-1.2
MVWBV	3.18

171748 was retained as a sire and is cutting a tidy 11.40 kg. 12003 is one of our best hinds with two sons in this years sale cutting 9.93kg and 7.75kg and 8.2kg sale stag in 2018. BORIS cut an impressive 10.26kg of lovely velvet at 3yrs and cutting 17.12 kg this season. 201444 has a 2yr stag coming. 08841WM has had a 7kg and 7.3kg sale stags.

Directions

Directions to Peel Forest Estate from Christchurch:

Follow State Highway 1 through Ashburton south to Hinds. In the middle of Hinds turn right at the sign to Peel Forest, then 2nd left at sign to Peel Forest travelling along Hinds Arundel Rd approx. 15km.

At the "T" junction turn left onto Highway 72, go over to Rangitata River and then immediately turn right to Arundel. Up the hill and turn right to Peel Forest.

Directions to Peel Forest Estate from Dunedin:

Travelling north from Dunedin, follow State Highway 1 through Timaru to Winchester, north of Temuka.

Turn left to Geraldine following Highway 72, through Geraldine, veering left after the one lane Orari Bridge, following sign to Peel Forest. Turn left into Peel Forest Rd after Coopers Creek Bridge and travel approx. 12 km.

After the Peel Forest Village roadside sign turn left onto Dennistoun Road, a single lane gravel road with a double row of beech planted on each side. GO straight through the white wooden gates which will be open and continue over to cattlestop into a woodland, up through the trees over the 2nd cattlestop and then fork to your right to the sales complex. Please park in the designated car park.

We look forward to seeing you!

Today more than ever, **service matters.**

For years, farmers have trusted and relied on Woodley's, with good reason.

Offering cost effective nationwide livestock transport – both down the road, or inter-island.

Our dedicated team of drivers deliver a professional customer focused service to farmers transport needs, daily. At Woodley's, we pride ourselves on our no nonsense, get on and do it attitude.

Call us. You won't regret it. You'll only wonder why you didn't earlier.

There's a reason why the best in the world trusts Gallagher.

Peel Forest Estate's two-year-old stag Olympus is a world record holder with his impressive 685-inch stag, a full 50 inches larger than the previous record holder. For an industry leader like Peel Forest Estate, where accurate data capture and comprehensive genetics analysis are paramount, there's no other gear for the job but Gallagher.

Peel Forest Estate uses Gallagher TSi2 Livestock Manager and HR5 Hand Held EID Tag Reader.
